## NARCISSI OR DAFFODILS

Narcissi or Daffodils are probably the most popular of Spring flowering bulbs. Their graceful form, beautifully shaped trumpets and cups, and long, straight stems, have made them favorites for cut flower purposes.

After January 1, 1926, the importation of Narcissi Bulbs will be prohibited.

Attention this Fall should therefore be centered upon these popular Spring flowering bulbs, as the possibility of an American source of supply after that date for either garden or forcing varieties is so uncertain, that we may be unable to replace them.
